## Disaster Preparedness for Hospitals and Healthcare Organizations within the Community Infrastructure

Protecting the critical infrastructure of the United States is essential to the nation's security, public health and safety, economic vitality, and way of life. Hospitals and healthcare organizations are part of the critical infrastructure as identified in the National Infrastructure Protection Plan (NIPP). This course brings together those individuals from the hospital and healthcare community who are responsible for ensuring the resiliency of healthcare services during a high-consequence or catastrophic event within a jurisdiction. Focusing on preparedness process and activities, this course provides hospital and healthcare personnel an opportunity to acquire the knowledge, skills and abilities necessary to help them ensure the sustainability of their facilities and organizations during all types of disasters.

### **Topics**

- Threats to the Community
- Fundamental of Preparedness
- Preparing the Response
- Preparing the Recovery
- Assessing Preparedness
